MADE IN THE USA

GARRETT®
METAL DETECTORS

Social Media Outlets

WORLD CLASS

Garrett was the first to provide security checkpoint screening metal detectors for the Olympic Games.

Since that time, our products have continued to improve for large venue use. Garrett detectors have been trusted at countless special events—including many Olympic and Paralympic Games, World Cup events, the Pan-American Games, professional sports contests, college stadiums, and more.

For decades, Garrett has been trusted at the largest special events to provide safety, security, and peace of mind.

GARRETT®
METAL DETECTORS

These marks certify Garrett's Made in USA quality inside and out.

GARRETT QUALITY
Made in USA
ISO 9001 Certified ®

GARRETT
ISO 9001 CERTIFIED

Don't be fooled by imposters. All Garrett products are designed, assembled, tested for quality control, and shipped from our headquarters in Garland, Texas, USA. Garrett's ISO 9001 certified Quality Management System emblems are an outward reflection of the true quality within.

WE'VE GOT YOU COVERED

Security screening checkpoints have become more routine in today's global marketplace. Cost, speed of screening patrons, training, quality of equipment, and many other factors come into the decision-making process.

By choosing Garrett Metal Detectors, you can put your worries at ease. Decades of experience, made in America quality, dependable service, and checkpoint-specific solutions are what we do.
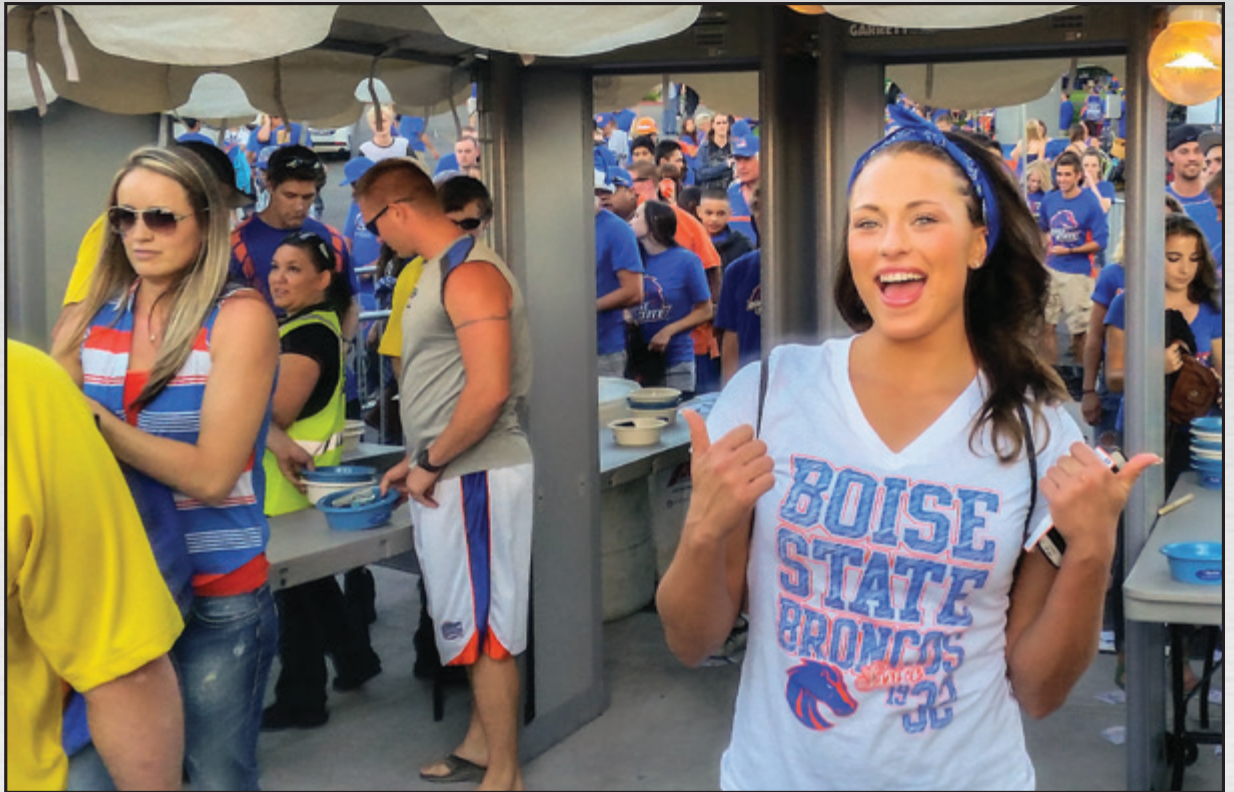

Walk-Through Metal Detectors

Safety. Security. Peace of Mind.

Garrett's walkthrough metal detectors are highly effective at moving large volumes of patrons through checkpoints with superior detection performance. Our detectors have been trusted worldwide for decades to safeguard airports, government buildings, correctional facilities, and international sporting contests.

The Garrett PD 6500i walk-through detector—featuring 33 pinpoint zones and advanced discrimination—and the Garrett MZ 6100 each offer enhanced features and mobile deployment options. Each includes advanced access control, intuitive operator menus, and full networking ability with other security checkpoint units.

Trust in Garrett, the global leader in detecting technology.

School security package plans available.

GARRETT Academy of Metal Detection

Comprehensive Training Available

Garrett proudly offers the industry's most complete training program for security and law enforcement metal detection screening. Each class is taught by a metal detector expert and is tailored to the distinctive needs of the specific security attendees.

Hands-on learning sessions and industry-specific materials are part of each course. Classes are available for supervisory, operational and instructor level personnel in government, corporate, education, and law enforcement agencies.

To enroll today, please call Garrett's Security Division at 972.494.6151 or email academy@garrett.com

PD 6500i™
Walk-Through Metal Detector

U.S.A. / International	Description			Color
1168414 / 1168424*	PD 6500i	30"	IP 55	Gray
1168432/ 1168427*	PD 6500i	32.5"**	IP 55	Gray

* Supplied with Euro plug.   ** ADA-compliant passageway

Multi-brand compatibility
Can be added to existing checkpoints without having to replace other brand units. Includes multiple channels and 2,300 selectable operating frequencies.

Optimum Performance
More than 20 standard program settings scientifically engineered to address the needs of airports, courthouses, prisons, schools, special events, mass transit, loss prevention, and other applications.

Advanced networking *(optional)*
Manage individual or groups of walkthroughs and perform statistical analysis of throughput using optional iC module. Supervisors can remotely access controls, visual alarms and statistics.
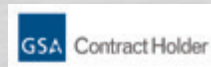

Directional counter
Four settings for counting patrons: forward only, reverse only, subtract in reverse, and bidirectional.

Control panel

ADA Compliant walkthrough available

GSA Contract Holder

PD 6500i is an **"Approved Product for Homeland Security"** under the **SAFETY Act.**

★ Advanced broadband technology
Analyzes targets across a broad range of frequencies for greater accuracy. Provides superior ferrous and non-ferrous detection. Improved discrimination means fewer false alarms and higher throughput.

★ More accurate pinpointing
With more than four times the detection coils of competitive models, the *PD 6500i* provides uniform detection and precise pinpointing. Independent zone indicator lights on both side panels identify not only height but also left, center and right locations for one or more objects passing through the archway.

★ Dual-sided detection
This unique bilateral technology has transmitters and receivers in each side panel to allow scanning from both sides, resulting in uniform detection throughout the archway. It also provides superior noise cancellation resulting in easier setup (i.e. no need to rotate the unit to avoid interference from nearby equipment such as other metal detectors or x-ray machines).

Superior versatility
Menu-based settings for feature selection such as alarm indication, count method, and language without the use of a computer. Field programmable to allow system up-grades. Multiple units can be installed as close as 2 inches.

International security standards
PD 6500i meets the world's highest test certifications, including the following airport standards:

TSA (U.S. airports)	ECAC (European airports)	STAC (French airports)	Aena (Spanish airports)	CJIAC (Japanese airports)

MZ 6100™
Walk-Through Metal Detector

U.S.A. / International	Description			Color
1171000 / 1171010*	*MZ 6100*	30"	IP 55	Gray
1171005/ 1171015*	*MZ 6100*	32.5"**	IP 55	Gray

* Supplied with Euro plug.   ** ADA-compliant passageway

★ Optimum Performance
More than 15 application programs engineered to address the needs of schools, special events, courthouses, mass transit, loss prevention, and other applications.

★ 20 Detection Zones
The *MZ 6100*'s twenty vertical zones provide precise location of one or more objects simultaneously.

Directional Counter
Four settings for counting patrons: forward only, reverse only, subtract in reverse, and bidirectional.

Optional Wired or Wireless Communication
Manage individual or groups of walkthroughs and perform statistical analysis of throughput using optional iC module.

Advanced Synchronization
Internal circuitry allows multiple detectors to operate as close as 2 inches from each other.

Two Optional Battery Backup Choices
1-hour or 10-hour operation lithium batteries available.

Alpha/numeric keypad has 60 million code combinations.

ADA Compliant walkthrough available

★ Intuitive Menu Design
32-character menu prompts are easy for users to understand (i.e., no codes, acronyms to learn).

★ Menu Slider Bar
Use to quickly adjust the value of a setting.

★ Enhanced Access Control
Tamper-free detector controls via a 5-digit alpha/numeric system that has 60 million code combinations. Additional security measures include a programmable keypad inhibit switch secured in the cabinet.

★ Bright LED Indicators
Eye-level green "proceed/ready" symbol, red "wait/alarm" symbol, and zone indicators are highly visible in the brightest sunlight.

★ Auto-Setup Function
The *MZ 6100* scans electromagnetic environment and selects optimal frequency for noise cancellation.

Superior versatility
Field programmable to allow system upgrades. Selectable preferred language for user programming functions. Environmentally protected against wind, dust, rain.

Right price, superior performance: make the Garrett *MZ 6100* part of your safe venue plan.

ACCESSORIES
Walk-Through Metal Detectors

Networking and monitoring. Mobility and stability. Garrett's security walkthroughs are supported by a host of accessory products designed to give the operator full flexibility. Visit garrett.com for information on all Garrett walk-through metal detector accessories.

Battery Modules
Use for backup power or for multi-hour cordless operation for special events. Mounts internally. No external wires or modules.

PD 6500i Lithium Battery Module
Up to ten (10) hours battery operation per full charge.
Part No. 2225420

PD 6500i Gel Cell Battery Module
Up to ten (10) hours emergency power.
Part No. 2225410

MZ 6100 1.5 A/H Lithium Battery Module
Provides 1 hour of emergency power.
Part No. 1171300

MZ 6100 14 A/H Lithium Battery Module
Provides up to 10 hour of battery operation.
Part No. 1171400

PORTABLE PROTECTION

Walk-Through Caster Set
Part No. 1169101
For use with Garrett PD 6500i and MZ 6100 walk-through metal detectors.

Fast, easy, versatile security.

Includes two rigid locking casters and two swivel locking casters. Ideal for schools, special events, and stadium use.

Quick-Q™
Advanced Security Scanning Technology
Part No. 1628500
Quick-Q technology provides quicker venue access by allowing patrons to pass through the checkpoint with cell phones and other small metallic items. (For use with Garrett PD 6500i only.)

iC Module
PN: 1171600   (PD 6500i or MZ 6100 use)
Communicate to a walk-through metal detector with a laptop or PC through the network either wired or wirelessly. Allows control, real time monitoring, and diagnostics from a remote location.

IR Remote Control
PN: 1169400   PD 6500i (image shown)
PN: 1169500   MZ 6100
Control Garrett walkthroughs wirelessly with this compact device.

Garrett Wireless Sync SM-100
Part No. 1168800
For use in operating multiple Garrett PD 6500i walkthroughs. (For use with Garrett PD 6500i only.)

Relay Module
Part No. 1171200
Provides an isolated relay contact to control lights, doors, equipment. Internal dip switches provide 4 operating modes.

Other available accessories:
• Security test pieces
• Charging cords, jumper cords
• Cable feedthrough kit
• Stablizer
• Desktop remotes

See garrett.com for all walk-through metal detector accessories.

Used either as a primary scanning tool or in secondary screening to pinpoint targets detected by a walk-through metal detector, Garrett hand-held detectors are designed for use in a wide variety of screening applications: public transportation, special events, airports, corporate security, courts, prison, loss prevention, and more.

Super Scanner® V
Hand-Held Metal Detector
PN: 1165190

THD™
Hand-Held Metal Detector
PN: 1165900

Ultimate sensitivity
Detects medium sized pistol from 9" distance; large knife from 6"; razor blades and box cutters from 3" distance; foil-wrapped drugs and tiny jewelry from 1".

Ultra sensitive response
to all ferrous, non-ferrous and stainless steel weapons, contraband and other metallic objects.

Bright LED flashlight
for low light and night operations. Useful for scanning IDs and for searching pockets, handbags.

360º Detection field
Powerful 4-inch detection length. Silent vibrating alarm with red LED alarm indicator.
Improved Features
Super Scanner V includes choice of clear audible or silent search/vibrate alarm options, plus extended battery life. Detects ferrous, non-ferrous and stainless steel weapons, contraband, and other metallic objects.

Three-color LED indication	Green LED = ON
	Amber LED = LOW BATTERY
	Red LED = ALARM
Operating Temperatures	-35º F (-37º C) to 158º F (70º C)
Width	3.25" (8.3 cm)
Thickness	1.625" (4.1 cm)
Length	16.5" (42 cm)
Total Weight	17.6 oz (500 g)
U.S. Trademarks	1,754,933 and 3,236,345
Battery Requirements	one 9V (included)
Warranty	2 Year, Limited Parts/Labor

No tools required to change standard 9V battery (included).
Rechargeable battery kit (PN 1610200) available. See garrett.com

Ballistic weave holster included. Mounts easily on belt or in car. No tools required to change standard 9V battery (included).

Three-color LED indication	Green LED = ON
	Amber LED = LOW BATTERY
	Red LED = ALARM
Operating Temperatures	-35º F (-37º C) to 158º F (70º C)
Width	3.25" (8.3 cm)
Thickness	1.625" (4.1 cm) tapered to 1.125" (2.9 cm)
Length	8.43" (22 cm)
Total Weight	6.4 oz (.2 kg)
U.S. Patent No.	D497,559 S
Battery Requirements	one 9V (included)
Warranty	2 Year, Limited Parts/Labor

Rechargeable battery kits available. See garrett.com

Ballistic Weave Holster

Look for "Made in USA" on the THD's endcap label.

SuperWand®
Hand-Held Metal Detector

PN: 1165800

Dual alarm mode
Select clear audible or silent search/vibrate alarm modes. Power switch and LEDs positioned for easy access and high visibility.
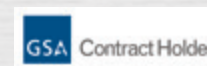

Pinpointing Tip

360º Detection field
provides uniform sensitivity and tip pinpointing to detect weapons and other metal objects with extreme accuracy.

GSA Contract Holder

Garrett has crime scene evidence recovery metal detectors and pinpointers to handle almost any challenge, including deep submergence.

CSI Pro™
All Terrain Metal Detector

PN: 1140750

The powerful *CSI* Pro provides all terrain versatility and unmatched performance for metallic crime scene evidence recovery.

MS-2 Headphones included!
With padded ear cups and volume control.
Fully waterproof headphones also available.

All terrain versatility
Fully WATERPROOF TO 10 FEET (3 meters).

High-Res Iron Discrimination™
40 levels of iron discrimination to separate good targets from trash.

Fast recovery speed
Allows greater ability to pick desired targets from trash items.

**Depth Indicator**
Know a target's depth before digging it.

Digital Target ID
0 to 99 Target ID scale offers increased ability to distinguish one target's conductivity from another.

Iron Audio™
Allows the user to hear discriminated iron and to alter the detector's mid-tone signal's range.

Optional CSI Pro Recovery Kit
PN 1140780
Includes CSI Pro detector and two extra accessories:

- CSI Pro-Pointer II ® pinpointer
- Soft Case: padded travel/ storage bag, 50" length

Visit garrett.com for more information on Garrett ground search metal detectors and accessories

CSI 250™
Ground Search Metal Detector

PN: 1140070

GSA Contract Holder

Easy operation, low cost
Includes high-end detector features such as Graphic Target ID and target depth indication.

Target ID Legend
Common crime scene targets (bullets, brass, silver, iron) are indicated with cursor and printed LCD legend.

Notch Discrimination
Modify discrimination patterns to search for specific items while ignoring others.

MS-2 Headphones (land-use) and CSI Carry Bag included

The simple-to-operate *CSI 250* has unparralleled performance for budget-minded departments and agencies.

Sea Hunter Mark II™
Metal Detector

PN: 1151970

Fully Waterproof to 200 feet
Find lost or hidden metal objects in underwater surf, beach, swamp or freshwater environments.

Pulse Induction Performance
Designed to ignore salt water and mineralized soils, the *Sea Hunter* will find all metal types, including brass, lead, cartridges and foil.

Discrimination Modes:
Two operating modes (Standard or Discrete) offer varying levels of non-ferrous target discrimination.

SEA HUNTER MARK II
ACCESSORIES INCLUDED

- Submersible headphones (as seen to left)
- Hip mount belt pouch to reduce detector weight for long searches

GSA Contract Holder

CSI Pro-Pointer® II
Pinpointing Metal Detector

PN: 1166020

GSA Contract Holder

CSI Pro-Pointer® AT
Pinpointing Metal Detector

PN: 1140920

Ideal for land-use evidence recovery.
Meets IP 66 standards. Can be washed in running water or used in the rain. One-press operation, with proportional audible and vibrating alarms which increase in intensity based on target's proximity (to quickly pinpoint crimes scene evidence).

Both Pro-Pointers include: static detection (no motion required); LED flashlight for low-light recoveries; exclusive scraping blade to sift through soil for evidence recovery; an auto-off feature; Lost Pro-Pointer alarm; pinpointing tip and 360º side-scanning capability; and holster.

Recover evidence faster in all terrains!
Fully waterproof to 20 feet (6m). Choose from three sensitivity levels. Fast retune (quick press) instantly tunes out environment or narrows detection field for precise pinpointing of larger targets.

Stealth Mode: choose from vibrate-only operation or patented proportional audio/vibrate alarm. Includes LED flashlight for low-light recoveries, lanyard attachment loop, and exclusive scraping blade to sift through soil for evidence recovery. Judge target depth using rulers molded into the pinpointer's side (in inches and centimeters). **Pinpointing tip and 360º side-scanning capability.**

Garrett Countermine / ERW Division

Highly Advanced Pulse Induction
Technology with All-Terrain Versatility

RECON-PRO® GARRETT AML-1000

RECON-PRO® GARRETT AML-750

Garrett's RECON-PRO All Metals Locators are designed to operate under any field conditions. These tactical metal detectors are highly rugged, simple to operate, and are waterproof to 3 meters.

Deep detection capability for humanitarian ERW operations. Rapid tactical deployment for military searches for mines, UXO, and IED searches.

American-Made, World Class Quality

Charles and Eleanor Garrett founded their company in 1964 to build a better metal detector. Through the decades, they have proudly maintained their personal goal—keeping their products American-made with the highest quality of standards. All Garrett products are designed, assembled, tested for quality control and shipped from the company headquarters in Garland, Texas.

Eleanor and her son Vaughan Garrett carry on the legacy of Charles Garrett (1932–2015) by maintaining the high standards of American-made products and superior customer service that the Garrett brand has stood for more than 55 years.

Eleanor Garrett and her son Vaughan carry on their family's business since the passing of co-founder Charles Garrett in 2015.
